FAQs

1. Can I get real money for these characters?

Yes 😊. Our Moneygames game is based on the Play-to-earn mechanism. As a player, you can earn in several ways, such as:

Earning award prizes when winning in Player versus Player (PvP) battles.

Selling in-game items such as healing potions, power-impulse-potions, and self-crafted weapons on the marketplace for money.

Upgrading characters and trading them later. The more unique and powerful their characters are, the more profit users earn.

2. So there will still be copies of the characters? or is each character unique and in a single copy?

Each character is backed by a truly unique NFT that is indistinguishable from any other NFT and can be farm by Money tokens. Each collectible is inimitable, authentic and differs in rarity. The Moneygames NFT collection can easily be integrated into art and other blockchain connected products.

About NFT technology:

3. What does the rarity of the NFT depend on? How many levels will be created?

The Moneygames collectibles are classified into 4 levels:

Level 1 items: Level 1 items represent 6 basic characters with the lowest strength level.

Level 2 items: Level 2 items represent the other 6 characters who are more powerful. Level 2 item's designs are more sophisticated than level 1 items'.

Level 3 items: Level 3 items represent the most sophisticated and powerful characters

Level 4 items: Level 4 items include 2 special characters who have superpowers and are extremely hard to collect

4. What do Money and Moneygames MNG mean?

In the Moneygames Collection, the 4 levels of the item are divided into 2 groups:

Money : Include level 1 and level 2 items. These items can be redeemed with the reward points generated from Moneygames Farming.

Money MNG : Include level 3 and level 4 items. These items can be redeemed with reward points generated from Moneygames Farming only

5. What are you planning to profit from and how can I make money on your platform?

Once you earn enough points, you can redeem them for a collectable NFT Moneygames collectibles. It entirely depends on you to collect them for yourself or sell them to others on the NFTs Market. With the vast development of Binance Smart Chain, the value of Moneygames collectibles will increase respectively due to its scarcity and high liquidity. We will launch a NFTs Market to support the liquidity of Moneygames NFT as well as the whole NFTs systems.

6. As I got, I will be able to create NFTs by myself, right?

Moneygames NFT Marketplace (MNG) is a Multi-Chain based NFTs platform where users can create, sell, and buy NFTs digital content easily. A creator just needs to upload their digital content such as pictures, artwork, select a blockchain network and other settings of the NFTs to create limited NFTs versions of the content.

7. What make you different from other NFT gaming projects?

We provide you with world-class collectibles created with the most sophisticated graphic design that is valuable in the marketplaces.

We bring you the most novelistic gaming experience with an NFT fantasy-themed RPG game with intriguing gameplay and storyline.

We offer you a cross-chain NFT marketplace equipped with superior features such as NFT auctions and affiliate programs where you can earn in several ways.

Dear our valued Players/Users/Investors!

Welcome to the fantasy world of Moneygames , where you can enjoy a novelistic gaming experience and earn money simultaneously!

Our game development team has over 10 years of experience creating world-class games with stunning visual and addictive gameplay. Over the years, we've been thinking about how to bring more value to the players of our games. We can now realize that goal thanks to blockchain technology and, in particular, NFT technology. By tokenizing our in-game characters and items into NFTs and creating a market for them, we can now bring those items real-life value from which our users can benefit.

Our ambition is to build a top NFTs ecosystem in the blockchain space that delivers sustainable value to our users and investors. The comprehensive ecosystem comprises Moneygames - The lucrative NFT fantasy-themed RPG game on BSC, high liquidity NFT Marketplace, world-class collectibles, and Moneygames community.

Finally, Thank you for being a part of the Moneygames community!
